

Your Source for Preopened Bags on a Roll

Polyrol Provides Quality, Service and Value

Polyrol Stretch Sleeves are a cost-effective way to give your product great shelf appeal without stretching your budget.

At Polyrol, we extrude our own films to exacting quality specifications using proprietary resin. Our manufacturing processes are certified to ISO 9001:2009. Our in-house graphics and prepress departments ensure a fast turnaround and high-end graphics with customer appeal.

Benefits

- Stretch Sleeves are adhesive free, easy to apply and ideal for a variety of sleeve applications
- 10-color printing and precise color matching from print run to print run
- High resistance to light and temperature for long lasting shelf appeal
- Low-cost, moisture proof labeling that delivers a 360° product message
- Shortest lead-times in the industry

Applications

- Food & Beverage
- Household Products
- Pet Supplies
- Industrial
- Automotive

Polyrol also offers a broad selection of quality bags on a roll. We specialize in providing preopened poly bags that are guaranteed compatible with industry standard bagging systems. We have a complete inventory of stock bags ready for shipping in two business days or less.

We also offer custom bags with unique features, graphics design assistance and printing capabilities in up to 10 colors. Polyrol bags are the competitively priced, bag on a roll solution.
